

AAKANKSHA KASHYAP

Gen AI Engineer | Backend Engineer | Applied AI Engineer | SDE

Location: Bangalore, India

Email: aaku.mas@gmail.com

LinkedIn: [linkedin.com/in/aakanksha-kashyap-ai](https://www.linkedin.com/in/aakanksha-kashyap-ai)

Portfolio: aakanksha98.github.io

PROFESSIONAL SUMMARY

Software Developer and Gen AI Engineer with 3.5+ years of experience building enterprise-scale telecomm applications at Ericsson. Strong foundation in backend engineering, REST APIs, Applied AI Engineering, and production software development.

Hands-on experience building RAG systems, FastAPI AI backends, AI voice agents, OpenAI integrations, retrieval pipelines, and production-style AI applications with strong understanding of :

- Retrieval-Augmented Generation (RAG)
- Embeddings and Vector Databases
- FastAPI-based AI architectures
- Prompt orchestration
- AI workflow automation
- Backend system design
- Production AI failure modes and evaluation

TECHNICAL SKILLS

Tech Stack

Python, Java, SQL, FastAPI, REST APIs, HTTP/JSON, Pydantic, Async APIs, Validation, Error Handling, OpenAI SDK,

ChromaDB, RAG, Vector Search

AI & Applied AI

OpenAI APIs ,RAG Architecture, Embeddings, Vector Databases, Retrieval Pipelines, Prompt Engineering, AI Agents, AI Automation

AI/Automation Tools

n8n, OpenAI SDK, ElevenLabs SDK

Tools & Platforms

Git, Linux, VSCode, Postman, WebRTC, Node.js, JavaScript, Agile, Claude Code, Codex, AntiGravity, n8n, Openclaw

PROFESSIONAL EXPERIENCE

Software Developer | Ericsson (Dec 2022 – Feb 2026)

Worked on enterprise telecom applications and large-scale network monitoring systems for Verizon and Telefonica Sweden.

Key Contributions

- Developed and enhanced network monitoring features for enterprise telecom systems
- Improved Central Map View application with physical link visualization, LSP state updates, and context menu integrations
- Implemented ES module architecture and optimized Webpack builds for improved maintainability
- Resolved 30+ high and critical Fortify security vulnerabilities across production applications
- Worked on backend integrations, REST APIs, and enterprise application workflows
- Migration of codebase from corba to MQTT server

Tech Stack

Core Java, Javascript, Springboot, SQL

Java Developer Intern | Dopamine Enterprises (Jan 2022 – Aug 2022)

- Developed backend services for an online water ordering platform
- Built REST APIs using Spring Boot.

Tech Stack

Java, SpringBoot, Oracle Database and Javascript

AI ENGINEERING PROJECTS

RAG Integrated ChatBot

- Built an end-to-end Retrieval-Augmented Generation (RAG) chatbot for answering questions from company knowledge documents including PDFs, policies, SOPs, and onboarding guides.
- Implemented document ingestion, text extraction, chunking, embeddings generation, vector storage, similarity search, and grounded answer generation.
- Developed REST APIs using FastAPI for document upload, ingestion, retrieval, and conversational question answering.
- Integrated OpenAI APIs for embeddings and response generation with prompt grounding to reduce hallucinations.
- Implemented source citations and retrieval-based context injection to improve answer transparency and accuracy.

Tech Stack

Python, FastAPI, OpenAI SDK, ChromaDB, Pydantic, RAG, Vector Search

Multi-Industry AI Voice Agent Platform

Built an AI Voice Agent platform capable of onboarding multiple business industries dynamically.

- Real-time conversational AI workflows
- Dynamic onboarding flows for businesses
- AI-powered voice interactions
- WebRTC-based live communication

Tech Stack

Next.js, ElevenLabs Conversational AI SDK, WebRTC

Image-to-UGC Ad Generation Workflow

Built AI workflow automation for generating UGC-style video advertisement content from image.

- AI-powered Image to UGC style content generation with a single source image
- Automated creative generation pipelines and workflow orchestration using n8n

Tech Stack

AI Automation, n8n, Workflow Pipelines, Prompt Engineering

EDUCATION

B.Tech in Information Technology

Techno India College of Technology, Kolkata

2017 – 2021

CGPA: 8.0

Simplilearn (2022)

Certified Java Full Stack Developer

Higher Secondary (2014-2016)

76.2% , Shree Krishna Public School, CBSE

Secondary School (2002-2014)

92.6%, Mount Assisi School, Bhagalpur, ICSE

ACHIEVEMENTS

- District Level Topper in National Talent Search Exam (NTSE)
- CFO at startup Zarvis.in — managed operations, client relations, and financial planning
